Media and Criminal Justice: The CSI Effect illustrates how media coverage and television programs inform the public ’ s perception of criminal justice. The CSI Effect can be characterized as the phenomenon whereby fiction is mistaken for reality and the assumption that all criminal cases can be solved through the employment of hi-tech forensic science such as crime scene investigation and DNA testing as depicted on television crime shows. This text provides broad, balanced, and comprehensive coverage of timely events in CSI, prosecutors, and wrongful convictions. The author explores some common misconceptions and helps readers towards a critical analysis of the information they see in the media and entertainment.

"Billy Frank, Jr., has been celebrated as a visionary, but if we go deeper and truer, we learn that he is best understood as a plainspoken bearer of traditions, a messenger, passing along messages from his father, from his grandfather, from those further back, from all Indian people, really. They are messages about the natural world, about societies past, about this society, and about societies to come. When examined rigorously - not out of any romanticism but only out of our own enlightened self-interest - these messages can be of great practical use to us in this and future years." - Charles Wilkinson, from the Introduction In 1974 Federal Judge George H. Boldt issued one of the most sweeping rulings in the history of the Pacific Northwest, affirming the treaty rights of Northwest tribal fishermen and allocating to them 50 percent of the harvestable catch of salmon and steelhead. Among the Indians testifying in Judge Boldt's courtroom were Nisqually tribal leader Billy Frank, Jr., and his 95-year-old father, whose six acres along the Nisqually River, known as Frank's Landing, had been targeted for years by state game wardens in the so-called Fish Wars. By the 1960s the Landing had become a focal point for the assertion of tribal treaty rights in the Northwest. It also lay at the moral center of the tribal sovereignty movement nationally. The confrontations at the Landing hit the news and caught the conscience of many. Like the schoolhouse steps at Little Rock, or the bridge at Selma, Frank's Landing came to signify a threshold for change, and Billy Frank, Jr., became a leading architect of consensus, a role he continues today as one of the most colorful and accomplished figures in the modern history of the Pacific Northwest. In Messages from Frank's Landing, Charles Wilkinson explores the broad historical, legal, and social context of Indian fishing rights in the Pacific Northwest, providing a dramatic account of the people and issues involved. He draws on his own decades of experience as a lawyer working with Indian people, and focuses throughout on Billy Frank and the river flowing past Frank's Landing. In all aspects of Frank's life as an activist, from legal settlements negotiated over salmon habitats destroyed by hydroelectric plants, to successful negotiations with the U.S. Army for environmental protection of tribal lands, Wilkinson points up the significance of the traditional Indian world view - the powerful and direct legacy of Frank's father, conveyed through generations of Indian people who have crafted a practical working philosophy and a way of life. Drawing on many hours spent talking and laughing with Billy Frank while canoeing the Nisqually watershed, Wilkinson conveys words of respect and responsibility for the earth we inhabit and for the diverse communities the world encompasses. These are the messages from Frank's Landing. Wilkinson brings welcome clarity to complex legal issues, deepening our insight into a turbulent period in the political and environmental history of the Northwest. "The Boldt decision profoundly changed natural resource management in the Pacific Northwest. This book clearly builds an historical base to help guide us today. The wisdom and patience of Billy Frank fill virtually every page. It is required reading for anyone interested in salmon preservation." - Governor Daniel J. Evans "Charles Wilkinson evokes the character and culture of the Nisqually people as well as their deep love for their land. From Chief Leschi to Billy Frank, we see the long thread of cultural continuity, culminating in modern times with this fight for justice." - Ada Deer (Menominee), University of Wisconsin-Madison Charles Wilkinson is Moses Lasky Professor of Law at the University of Colorado, Boulder. He is the author of Fire on the Plateau: Conflict and
