When the anti-theft system is activated accidentally, most people suspect a faulty key. While this could be a possible reason, it is a bleak one because the keys made by Ford are usually strong and sturdy. So, before you look to get your key replaced or repaired, try these simple steps to reset the anti-theft system of your Ford.

how to reset security system on ford explorer 2004 I am not sure about the mercury sable but my car does that also, 2003 Pontiac grand am gt, it tells you how to reset in owners manual.

~~How do you reset the security system on a 2004 ford explorer~~

Ford vehicles use both an active and passive antitheft system. If you've misplaced your remote for the car, use the PATS programmed key to unlock the driver's side door. Locate the override button on the alarm box, beneath the driver's side of the dashboard. Press the button and hold it in until the alarm beeps one time.

~~How to Disable Anti Theft on a Ford~~

There are two security features on a Ford. One is a personal alarm system that makes a loud noise if someone tries to break into the vehicle. This is turned on and off using a remote control key. The other system is a passive system called the Securilock. This prevents the engine from starting without the use of a coded ignition key.

2004 Ford Explorer won't start. Think we need to 2004 Ford Explorer won't start. ... These systems may reduce the vehicle security level, and also may cause no-start issues. If equipped the remote start system must be removed before investigation of PATS-related, no-start issues. ... to stick the key into the ignition and turn the key all the ...

~~SOLVED: 2004 Ford Explorer won't start. Think we need to ...~~

The passive anti-theft system (PATS) is installed on every Ford Expedition at the factory. While some erroneously call this system the factory alarm, it really is not an alarm system. The PATS system will arm itself if someone attempts to start the vehicle with anything other than the PATS key programmed to that specific vehicle.
