The intention of the book is grounded

on the unbroken enthusiasm for airlines and the entire travel and transportation industry, as well as our interest in writing a compact handbook with basic knowledge about airlines (from the perspective of two consultants). Especially at the

beginning of our
career in the
consulting industry,
we realized that
this basic
knowledge about
airlines is hidden in
countless
textbooks,
websites and
experiences of
experts and that a
compact handbook
would certainly be

Beneficial. From this thought the idea was born to provide graduates, people interested in airlines, airline newcomers and airline experts a book, which makes the entry into the airline industry more enjoyable and easier. We hope that our book

will give you interesting insights into this exciting industry and that it will inspire and stimulate you, especially with the organizational and theoretical models (which undoubtedly originate from our core competence as consultants). We hope you enjoy
