BSc Mathematics, Statistics, and Business

Business mathematics are mathematics used by commercial enterprises to record and manage business operations. Commercial organizations use mathematics in accounting, inventory management, marketing, sales forecasting, and financial analysis. Mathematics typically used in commerce includes elementary arithmetic, elementary algebra, statistics and probability. For some management problems, more advanced mathematics - such as calculus, matrix algebra and linear programming - is applied.

Business mathematics - Wikipedia

Introducing BSc Mathematics and Business This programme allows you to take courses in business, management and economics alongside your mathematics courses. You will gain invaluable problem solving skills and analytical skills through mathematics courses, and learn how to apply them in a business setting.
