Poclairn produced excavators, and was a leader on the French and world market thanks to a revolutionary hydraulic motor.The Batailles were forced to sell the company to Case in 1974, an American company, which then took over completely in 1987, leaving them (the Batailles) only the hydraulics division, which is still trading today.. Poclairn make radial piston hydraulic motors, which are mostly ...

[Expansive Soils](#) provides the reader with easy and specific access to problems associated with expansive soils, characteristics and treatment, and evaluation and remediation. Set up with contributions from worldwide expert, this main reference guide is intended for engineers, researchers and senior students working on soil

[Construction Project Management](#) deals with different facets of construction management emphasizing the basic concepts that any engineering student is supposed to know. The major principles of project management have been derived through real life case studies from the field. Simplified examples have been used to facilitate better understanding of the concepts before going into the large and complex problems. The book features computer applications (Primavera and MS Project) used to explain planning, scheduling, resource leveling, monitoring and reporting; it is highly illustrated with line dia.

A thought-provoking analysis of the new business paradigm shows how firms that do "everything right" can nevertheless fail because of new technologies and disruptions in the market structure. Reprint.
