A Different Mirror Chapter 1: A Different Mirror Summary ...

Chapter 1: A Different Mirror. Ronald Takaki, the author of the book, finds that people often do not see him as "American" despite the fact that his ancestors emigrated from Japan in the 1880s. He knows that this is thanks to what he calls the "Master Narrative of American history," which falsely asserts that the United States is a white country. In the book, he will cover the history of many different ethnic groups: African Americans, Asian Americans, Irish Americans, Jewish ...

A Different Mirror by Ronald Takaki Plot Summary | LitCharts

Takaki's main argument in A Different Mirror is that the United States, from its inception, has been a multicultural and diverse country, originally inhabited by Native Americans and by subsequent ethnic groups who have worked to advance the ideals of American democracy and its promise of "equality for all." Takaki provocatively states that America was not settled and developed primarily by Europeans; rather, it was built from the appropriated land and labor of Native Americans ...

Takaki introduces Part 2 (Chapters 4-8) by describing the ideological contradictions of American democracy. The Founding Fathers claimed that equality was a self-evident truth but disenfranchised blacks by not allowing them to vote and counting them only as "three-fifths of all other persons" (75). In the early 1800s technological advancements like the cotton gin "transformed America into a highly complex industrial economy" (75)—one that increasingly relied on chattel slavery to ...

Overview. A Different Mirror deals with the subject of minority perspectives of multicultural America, incorporating quotes, folk songs, letters, telegrams, and photographs into the text. It deals with, in roughly sequential order, Native Americans, African Americans pre- and post-slavery era, Irish, Mexicans, Chicanos, Chinese, Japanese, Jews, and ties up the book with a current (for the time the book was written) summary of where minorities are now.

A longtime professor of Ethnic Studies at the University of California at Berkeley, Ronald Takaki was recognized as one of the foremost scholars of American ethnic history and diversity. When the first edition of A Different Mirror was published in 1993, Publishers Weekly called it "a brilliant revisionist history of America that is likely to become a classic of multicultural studies" and named it one of the ten best books of the year. Now Rebecca Stefoff, who adapted Howard Zinn's best-selling A People's History of the United States for younger readers, turns the updated 2008 edition of Takaki's multicultural masterwork into A Different Mirror for Young People. Drawing on Takaki's vast array of primary sources, and staying true to his own words whenever possible, A Different Mirror for Young People brings ethnic history alive through the words of people, including teenagers, who recorded their experiences in letters, diaries, and poems. Like Zinn's A People's History, Takaki's A Different Mirror offers a rich and rewarding "people's view" perspective on the American story.

Takaki traces the economic and political history of Indians, African Americans, Mexicans, Japanese, Chinese, Irish, and Jewish people in America, with considerable attention given to instances and consequences of racism. The narrative is laced with short quotations, cameos of personal experiences, and excerpts from folk music and literature. Well-known occurrences, such as the Triangle Shirtwaist Factory Fire, the Trail of Tears, the Harlem Renaissance, and the Japanese internment are included. Students may be surprised by some of the revelations, but will recognize a constant thread of rampant racism. The author concludes with a summary of today's changing economic climate and offers Rodney King's challenge to all of us to try to get along. Readers will find this overview to be an accessible, cogent jumping-off place for American history and political science plus a guide to the myriad other sources identified in the notes.

In an extraordinary blend of narrative history, personal recollection, & oral testimony, the author presents a sweeping history of Asian Americans. He writes of the Chinese who laid tracks for the transcontinental railroad, of plantation laborers in the canefields of Hawaii, of "picture brides" marrying strangers in the hope of becoming part of the American dream. He tells stories of Japanese Americans behind the barbed wire of U.S. internment camps during World War II, among refugees tragically unable to adjust to Wisconsin's alien climate & culture, & Asian American students stigmatized by the stereotype of the "model minority." This is a powerful & moving work that will resonate for all Americans, who together make up a nation of immigrants from other shores.

For too long we've lacked a compact, inexpensive, authoritative, and compulsively readable book that offers American readers a clear, informative, and inspiring narrative account of their country. Such a fresh retelling of the American story is especially needed today, to shape and deepen young Americans' sense of the land they inhabit, help them to understand its roots and share in its memories, all the while equipping them for the privileges and responsibilities of citizenship in American society The existing texts simply fail to tell that story with energy and conviction. Too often they reflect a fragmented outlook that fails to convey to American readers the grand trajectory of their own history. This state of affairs cannot continue for long without producing serious consequences. A great nation needs and deserves a great and coherent narrative, as an expression of its own self-understanding and its aspirations; and it needs to be able to convey that narrative to its young effectively. Of course, it goes without saying that such a narrative cannot be a fairy tale of the past. It will not be convincing if it is not truthful. But as Land of Hope brilliantly shows, there is no contradiction between a truthful account of the American past and an inspiring one. Readers of Land of Hope will find both in its pages.

The Indian question -- Indian citizenship -- An account of the tribes

The bombing of Hiroshima was one of the pivotal events of the twentieth century, yet this controversial question remains unresolved. At the time, General Dwight Eisenhower, General Douglas MacArthur, and chief of staff Admiral William Leahy all agreed that an atomic attack on Japanese cities was unnecessary. All of them believed that Japan had already been beaten and that the war would soon end. Was the bomb dropped to end the war more quickly? Or did it herald the start of the Cold War? In his probing new study, prizewinning historian Ronald Takaki explores these factors and more. He considers the cultural context of race - the ways in which stereotypes of the Japanese influenced public opinion and policymakers - and also probes the human dimension. Relying on top secret military reports, diaries, and personal letters, Takaki relates international policies to the individuals involved: Los Alamos director J. Robert Oppenheimer, Secretary of State James Byrnes, Secretary of War Henry L. Stimson, and others... but above all, Harry Truman.

These essays include writings from Cornel West, Michael Omi, Audre Lorde, Gloria Anzaldua and Michelle Fine. The essays address the multiplicity and scope of oppressions ranging from ableism to racism and other less-well known social aberrations.

From a Navajo code talker to a Tuskegee pilot, Takaki examines the many contributions and sacrifices of America's minorities--blacks, Chinese, Native Americans and others--during World War II. Photos.

This third edition of the widely acclaimed classic has been thoroughly expanded and updated to reflect current demographic, economic, and political realities. Drawing on recent census data and other primary sources, Portes and Rumbaut have infused the entire text with new information and added a vivid array of new vignettes and illustrations. Recognized for its superb portrayal of immigration and immigrant lives in the United States, this book probes the dynamics of immigrant politics, examining questions of identity and loyalty among newcomers, and explores the psychological consequences of varying modes of migration and acculturation. The authors look at patterns of settlement in urban America, discuss the problems of English-language acquisition and bilingual education, explain how immigrants incorporate themselves into the American economy, and examine the trajectories of their children from adolescence to early adulthood. With a vital new chapter on religion-and fresh analyses of topics ranging from patterns of incarceration to the mobility of the second generation and the unintended consequences of public policies--this updated edition is indispensable for framing and informing issues that promise to be even more hotly and urgently contested as the subject moves to the center of national debate..

A Young People's History of the United States brings to US history the viewpoints of workers, slaves, immigrants, women, Native Americans, and others whose stories, and their impact, are rarely included in books for young people. A Young People's History of the United States is also a companion volume to The People Speak, the film adapted from A People's History of the United States and Voices of a People's History of the United States. Beginning with a look at Christopher Columbus's arrival through the eyes of the Arawak Indians, then leading the reader through the struggles for workers' rights, women's rights, and civil rights during the nineteenth and twentieth centuries, and ending with the current protests against continued American imperialism, Zinn in the volumes of A Young People's History of the United States presents a radical new way of understanding America's history. In so doing, he reminds readers that America's true greatness is shaped by our dissident voices, not our military generals.
