medical standards--from PHTLS to NASEMSO--and incorporates evidence-based medical concepts to ensure students and instructors have accurate, insightful interpretation of medical science as it applies to prehospital medicine today.

Application to Real-World EMS

Through evolving patient case studies in each chapter, the Eleventh Edition gives students real-world context to apply the knowledge gained in the chapter, clarifying how the information is used to care for patients in the field, and pushing students to engage in critical thinking and discussion. A Foundation for Life The Eleventh Edition is built on the premise that students need a solid foundation in the basics and
