It is important for doctors to acquire good consultation skills which go beyond prescriptive history taking learned as part of the comprehensive and systematic clerking process outlined in textbooks. A good history is one which reveals the patient's ideas, concerns and expectations as well as any accompanying diagnosis.

History taking is a complex skill. Sokol tells us, "In short, the law expects history taking to be the same, whether it is by an inexperienced junior doctor or a consultant. Lord Justice Jackson said that history taking was a basic skill that hospital doctors at all levels should possess." 1. This presents a few problems.

One of the first aphorisms you'll hear during your medical training is that 'a careful history will lead to a diagnosis 80% of the time'. While this obviously depends on the context, your ability to take a precise and relevant history is the most powerful diagnostic tool in your armamentarium as a doctor.
