But a timeline of events since then shows a bevy of Facebook security and data privacy issues. In February 2018, Facebook was found guilty in German and Belgian courts of violating privacy laws.

A recent history of Facebook security and privacy issues

Problem #10 - Protecting data is often a series of reactions and not a strategy. Despite claims that protecting data assets is strategic to an enterprise, I often find that the scope of data protection projects is either regulation or department-specific. A very useful project is to begin developing an enterprise-wide data protection strategy.
